

Discover Our IP69K Rated Solutions:

The Ultimate Protection for Washdown Environments

What is IP69K?

- **Top-Tier Protection:** IP69K is the highest ingress protection rating, offering complete defense against dust and high-pressure, high-temperature water jets.
- **Designed for Harsh Conditions:** Ideal for equipment exposed to rigorous cleaning procedures and extreme environments.

Why Choose IP69K-Rated Products?

- **Maximum Durability:** Withstands high-pressure washdowns, dust, chemicals, and extreme temperatures.
- **Enhanced Safety:** Prevents equipment failure and reduces safety hazards.
- **Regulatory Compliance:** Meets stringent industry standards for hygiene and protection.
- **Cost Efficiency:** Reduces maintenance costs and minimizes downtime.

IP69K Rated Products

GracePort® ThruView™ 360: A panel interface connector with a circular housing for quick installation, combining a viewing window and access port for programming and troubleshooting.

GracePort® MagView: An external access port for control panels with a transparent window and magnetic latch that allows easy programming without opening the enclosure.

GracePort® with Stainless Steel Housing: A panel interface connector enclosed in corrosion-resistant stainless steel, providing secure access to ports in corrosive or hygienic environments.

ChekVolt® Permanent Electrical Safety Device (PESD): Provides LED voltage presence indication and voltmeter-compatible test points to verify the absence of voltage without exposing workers to live components.

GraceSense™ VBTx Vibration and Temperature Sensor: A wireless sensor that monitors machinery health by measuring vibration and temperature for predictive maintenance.

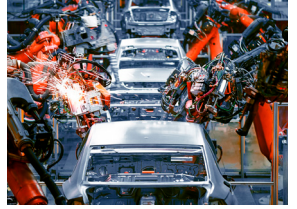

GraceSense™ Gateways in MagView Housings: A gateway device that collects data from multiple sensors and features a transparent housing for visual inspection without opening the enclosure.

ZERO HARM. ZERO DOWNTIME.

Industries We Serve with IP69K Products

- Food & Beverage
- Pharmaceutical
- Chemical Processing
- Oil & Gas
- Water & Wastewater Treatment
- Automotive & Heavy Machinery
- Marine Applications
- Industrial Manufacturing
