

Keep Your Team Safe with Wearable Voltage Detection

Get started with our Pilot Program for \$5,000

**LOVE IT OR
RETURN IT**

90-Day Pilot
EVALUATION*

What is Proxxi? Proxxi Band is a wearable voltage detector designed to alert workers— via vibration, sound, and light—whenever they approach energized equipment. By adding this real-time feedback on top of Lockout/Tagout (LOTO) and PPE, Proxxi offers a critical extra layer of defense against unexpected hazards.

*Return for full hardware refund (\$2,500); does not include setup and service fees.

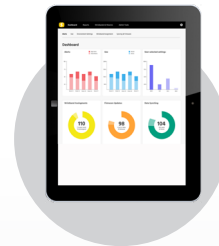

What's Included in the Pilot? (Part No. W-PRX-PLT6)

**6 Proxxi
Wristbands**

**White Glove
Onboarding**

**Dashboard
Access**

- ✓ **Try It On Your Terms:** Test Proxxi in your environment before a full rollout.
- ✓ **Spot Safety Gaps Sooner:** Use dashboard insights to flag exposure trends and training needs.
- ✓ **Easy, Expert Onboarding:** Setup and training with four weeks of included support.
- ✓ **Add a Smart Layer of Protection:** Real-time alerts add a critical layer to your safety program.
